Re: Amended *Ex Parte* Communication
ET Docket No. 03-201, Modifications of Parts 2 and 15 of the Commissions Rules for
unlicensed devices and equipment approval.

Dear Ms. Dortch:

On October 14 – 16th, 2003, members of the Telecommunication Certification Body Council as well as Industry representatives participated in a TCB Council training session which included attendance by officials of the Commission's Office of Engineering and Technology. As part of this training for TCB's on updated FCC regulations, several discussions between the instructors, the FCC staff and the various industry members in attendance occurred throughout the three days of this training session on the above NPRM.

At the recommendation of the FCC Authorization Branch and in accordance with Section 1.1206 of the Commission's Rules, 47 C.F.R. § 1206, this letter is being filed electronically and a copy sent to each named FCC participant.

Addressing Part 15.203 the application of when professional install is required, definition of professional install, and the requirements of unique connectors as well as discussions on streamlining antenna applications.

Addressing Part 15.204, the discussion revolved around marketing of amplifiers and testing as Class II or new certifications.

Further discussion involved Lab Accreditation issues and requirements that would again affect the TCB reviewing the certification.

Please direct any questions concerning this matter to the undersigned.

Respectfully submitted,

David A. Case NCE, NCT
Member TCB Council Executive Committee
